BUSINESS

4K Outdoor Bullet Network Camera

Designed to equip security professionals with the best possible CCTV footage for evidence, the WV-S1572L captures high quality 4K images even in very challenging, dynamic and exposed environments that require reliable hardware.

To adjust key camera settings automatically in real time, improved intelligent auto (iA) monitors scene dynamics and motion, and captures clear images while reducing distortion such as motion blur on moving objects.

In order to save bandwidth at 50%* lower than existing cameras and maintain image quality, the improved Smart Coding technology optimizes video compression through captured scene. *Compared to Smart Coding OFF with H.265

Extreme image quality allows evidence to be captured even under challenging conditions

- True 4K lens and large image sensor realize wide area surveillance with improved high-quality images
- Auto shutter speed control for moving objects
- Outstanding low-light performance in true color with low noise for nighttime applications
- Built-in IR LED to produce a clear monochrome image in 0 lux conditions with 40 m (131 feet) irradiation distance
- Environmental durability: IP66, IK10

Extreme bandwidth compression with evolved Smart Coding

- Longer recording and less storage requirements compared to traditional H.265 compression techniques
- Improved video compression technology detects objects such as faces, humans, vehicles and motorcycles / bicycles within the image and compresses the areas without objects in order to reduce transmitted data while maintaining image quality

Easy installation

- Allows you to connect the network cable to the camera body simply by opening a part of the package, which saves you time and workspace, especially when handling multiple cameras

Key Features

- 4K (3,840 x 2,160) up to 30fps
- Intelligent Auto
- Color night vision (0.006 to 0.09 lx)
- H.265 Smart Coding
- FIPS140-2 CAVP compliant

• i-VMD License Bundled

Onvif Profile G / S / T

Industry examples

- Public safety (City / Highway toll / Parking gate)
- Transportation (Airport / Train / Subway)
- Retail / Bank / Logistics / Education / Hospital / Building

 ^{*7} When recording audio on an SD memory card, only use AAC-LC (Advanced Audio Coding - Low Complexity).
 *8 This camera is not equipped with the function to change the audio output to the monitor output.
 *9 When using with the IR LED light constantly lit, the upper limit of the operating temperature range is +50 °C (+122 °F).

Appearance

Unit: mm (inches)

^{*2 90°} and 270° are invalid only in the 320×180 resolution.

^{*3} Following the setting angle of the rotated image, the analog output of the MONITOR OUT terminal rotates.
*4 Maximum distance at which a camera's tele and wide lens can meet DORI specifications. This value does not indicate the performance of the camera. Calculations made with the camera installed horizontally at resolution of 3840x2160.

^{*5} H.265/H.264 can be selected for each stream.
*6 Transmission for 4 streams can be individually set.

Plug-in Software for i-VMD

i-VMD is possible to detect objects in the specified area by advanced video analysis technology. i-VMD: Intruder Detection, Loitering Detection, Direction Detection, Cross Line Detection

Notification sent to the monitoring screen

Optional Accessories

■ Mount Bracket

Brackets are available in four colors, Fine silver, Light gray, Gray and i-PRO white. It is possible to use them in different color combinations.
