

MKP-300

WIRELESS KEYPAD FOR MICRA SYSTEM

Wireless keypad for MICRA system which allows arming / disarming and controlling devices connected to the module, without the need to have an own remote control key fob. This makes it an ideal control solution wherever the system is expected to be operated by many different people.

Features:

- arming/disarming, triggering panic alarm or switching on/off devices connected to the MICRA system by means of codes,
- LEDs indicating the arm/disarm commands,
- backlit keys for easy keypad operation in dark rooms,
- a flap for protection of keys

Application:

Control of the MICRA system in small-size buildings, such as kiosks, summer houses, boutiques, freestanding garages and workshops

Delivery set:

Keypad, CR123A battery, user manual

TECHNICAL DATA

Environmental class	II
Battery working time (in years)	Estimated 3 years
Operating temperature range	-10...+55 °C
Standby mode current consumption	80 µA
Max. current consumption	20 mA
Weight	164 g
Maximum humidity	93 ±3%
Operating frequency band	433,05 ± 434,79 MHz
Radio communication range (in open area)	up to 200 m
Battery	CR123A 3V
Dimensions	144 x 80 x 27 mm
